## **St. Petersburg-Clearwater International Airport (PIE) debuts new website design and Airport news subscription service**

[www.Fly2PIE.com](http://www.Fly2PIE.com)

The St. Petersburg-Clearwater International Airport announces the debut of its redesigned website and news subscription service. The new design features easy to find information for the traveling public and the community, including quick access to airlines & destinations, press releases, traveler information, airport services, projects, and noise affairs.

In addition, the website allows you to subscribe directly to airport news and choose the information you would like to receive, including press releases, quarterly newsletters, or online notice of noise affairs updates. Log on to [www.fly2PIE.com](http://www.fly2PIE.com) and click on *Subscribe*.

The Airport launched a campaign this summer inviting the public to subscribe to airport news online or by mail. Information on the new service was sent to select County residents via postcard and fliers included in summer utility bills. For those individuals without on-line access who may want to receive a quarterly Fly2PIE Newsletter by mail, please call 727-453-7811.

Noah Lagos, Airport Director, comments "The campaign to increase Airport communications with the public is a great success! We hope more people will take the opportunity to access Airport news and flight information on our newly redesigned website. The website features our family of low-fare airlines flying non-stop to over 20 destinations in the United States and Canada. "Log on" and "surf" our site to find out more about the St. Petersburg-Clearwater International Airport."
