St. Pete-Clearwater International (PIE) to begin Terminal Renovations Phase 3

St. Pete-Clearwater International Airport (PIE) Terminal Renovation Phase 3 Project Contract was approved by the Pinellas County Board of County Commissioners (BCC) at their March 15th meeting. The \$9.8 million contract was awarded to Artec Group with construction to commence in April 2016 and to be completed in approximately 15 months. The project will primarily be paid for with Passenger Facility Charges (PFC) and have no impact to the rates and charges paid by the airlines.

The project will add approximately 12,000 square feet to Gates 7-10. Passenger hold room capacity will be increased and an additional 350 new seats will be added, bringing total passenger seating to 750 in this area. Additionally, both Passenger Screening Checkpoints will be increased in size from two to three lanes to help expedite passenger screening by the Transportation Security Administration. Gates 7-10 renovations will also include improvements to the News & Gifts and Food & Beverage Concessions facilities, and a new children's play area.

Restrooms will be renovated and expanded in Gates 7-10, Baggage Claim, in the second floor Restaurant, and in second floor Operations Wing, including upgrades to meet ADA requirements. A new 350 HVAC chiller and a new mechanical control room will be added.

Airport Director Tom Jewsbury states "We are excited to get started on this project. For over three years we have been growing by double digits. Although the construction phase will present challenges, the end result will be worth it for our passengers comfort and convenience. We will strive to minimize any impacts to our customers and want to thank them for their continued patronage."
