**Subject:**

Emergency agreement with Ajax Paving Industries of Florida, LLC, for Runway 18-36 Pavement Maintenance.

**Recommended Action:**

Approval and execution by the County Administrator of the emergency agreement with Ajax Paving Industries of Florida, LLC (Ajax) for Runway 18-36 Pavement Maintenance.

- The St. Pete-Clearwater International Airport (PIE) is requesting an emergency agreement with Ajax to perform construction to correct a design error effecting the longitudinal profile of Runway 18-36 committed by the engineering firm, Kimley-Horn & Associates, Inc. (Kimley-Horn). The approval of the agreement with Kimley-Horn (Legistar No. 22-1007D) is concurrent with the approval of this agreement with Ajax.
- Kimley-Horn will be responsible for paying all costs associated with the construction and construction phase services of this project by depositing funds into a “perfect receivable account” created by Clerk’s Finance in order for the County to make payment to Ajax for completing this work. Ajax is the original contractor who completed the work as required under prior contract no. 189-0334-CP.
- This emergency agreement is requested to expediate this work. Utilizing competition will be detrimental to the timely acquisition of goods and services. Total cost of this agreement is not to exceed \$2,322,396.21 for a duration of 180 days. This design error is a serious safety issue, per the Airport. Allegiant pilots have filed safety reports on this bumpy condition which led to the investigation. The excessive bumpy takeoffs have been verified by Airport staff and deemed to be a serious safety issue that needs to be corrected immediately.
- The County Administrator has delegated authority under Code Section 2-181(b)1 to approve this emergency purchase with receipt and file to the Board of County Commissioners. Staff requests approval under emergency code due to the serious safety issue. Staff is processing ratification by the Board under Legistar No. 22-1844A of the County Administrator’s approval.

Contract No. 22-0650-E is for a not to exceed amount of \$2,322,396.21 for a duration of 180 days.

**Strategic Plan:**

Deliver First Class Services to the Public and Our Customers

5.2 Be responsible stewards of the public’s resources

5.3 Ensure effective and efficient delivery of county services and support

**Summary:**

This emergency agreement with Ajax is to perform the construction necessary to correct the design error committed by Kimley-Horn. Ajax performed the original project work under contract no. 189-0334-CP for the Runway 18-36 Rehabilitation project which expired February 22, 2022.

Kimley-Horn will be responsible for paying all costs associated with the construction and construction phase services of this project by depositing funds into a "perfect receivable account" created by Clerk's Finance in order for the County to make payment to Ajax for completing this work.

It is necessary to approve the agreement as an emergency to complete the work expeditiously and to allow the same vendor which started the original work to complete the emergency work.

**Background/Explanation:**

St. Pete-Clearwater International Airport (PIE) completed the Runway 18-36 Pavement Rehabilitation project in the Spring of 2021. Although the contractor met all acceptance criteria per the contract documents during construction, it was noticed after the completion of the project that there was a portion of the longitudinal profile of the runway that did not meet the design criteria per the FAA Advisory Circular 150/5300-13B, Airport Design.

Ajax, the original contractor for the Runway 18-36 Rehabilitation project, has provided a cost estimate of \$2,322,396.21 for this work. This includes \$1,823,098.38 for the work related to the Runway 18-36 maintenance, and an additional \$499,297.83 for pavement rehabilitation to Taxiway "G", (parallel taxiway to Runway 4-22), should it be needed due to the impacts of placing air carrier operations on this taxiway after the work related to Runway 18-36 is completed (i.e., If no damage is done to Taxiway "G" during this project, this work will not be needed). All costs for this work will be borne by Kimley-Horn.

**Fiscal Impact:**

The total cost of this Agreement is \$2,322,396.21 (Agreement No. 22-0650-E, pg.1). Per the Agreement between Pinellas County and Kimley-Horn (Granicus Item: 22-1007D, Kimley-Horn Contract, Section 2B), Kimley-Horn hereby agrees that upon request by the County and based on the amount requested by Ajax in their monthly payment Apps/requests, they will send a payment equal to the requested and agreed upon amount into an account provided by the County. The County will use these funds to pay Ajax as a contractor during construction. Payments by Kimley-Horn will be made via wire transfer to the account provided by the County within ten (10) business days of mutual approval of the Contractor's pay request by the County and Kimley-Horn. As a result, no negative budgetary impacts are anticipated.

**Delegated Authority:**

Authority for the County Administrator to approve this emergency purchase is granted under Code Section 2-181(b)1.

F. General Inspection Requirements

- 1. Cooperation by the Contractor: No work shall be done nor materials used, without suitable supervision or inspection by the design professional/engineer/project manager or his/her representative, and the contractor shall furnish the design professional/engineer/project manager with every reasonable facility for ascertaining whether the work performed and materials used are in accordance with the requirements and intent of the plans and specifications. - 3. Failure to remove and renew defective materials and work:
  - a. Should the contractor fail or refuse to remove and renew any defective materials used or work performed, or to make any necessary corrections in an acceptable manner and in accordance with the requirements of the specifications, within the time indicated in writing, the design professional/engineer/project manager shall have the authority to cause the unacceptable or defective materials or work to be repaired, removed and renewed, as may be necessary; all at the contractor's expense.

- C. No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the Work from any cause whatsoever, including those for which the County may be responsible, in whole or in part, shall relieve the Contractor of his duty to perform or give rise to any right to damages or additional compensation from the County. property insurance and other arrangements to protect the County's interest therein, all of which shall be subject to the County's satisfaction. Contractor shall complete a Schedule of Stored Materials form.

- D. Contractor shall submit 3 notarized original copies of its monthly Application for Payment to Design Professional/Engineer/Project Manager for Work performed during the previous month. Invoices received after the previous month Application for Payment shall be considered for payment as part of the next month's application. Within 10 calendar days after receipt of each Application for Payment, Design Professional/Engineer/Project Manager shall submit to the County the approved Application for Payment in the amount recommended by Design Professional/Engineer/Project Manager as being due and owing Contractor. The County shall pay Contractor that portion of Design Professional/Engineer/Project Manager's approved Application for Payment, which the County approves as being due and owing Contractor in accordance with §218.70-79, Florida Statutes ("Local Government Prompt Payment Act").
- E. Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's Work.
- F. Monthly payments will be made to the Contractor. Estimates of quantities will be prepared monthly by the Contractor, based on unit values or the Schedule of Values, as applicable to the Project. The Design Professional/Engineer/Project Manager's project representative will be required to verify these estimates with the Contractor and sign the estimate in agreement. The payment estimate will then be checked by the Design Professional/Engineer/Project Manager, who will reconfirm with the Contractor any required corrections, before further processing of payments.
- G. Retainage: If progress satisfactory to the County is being made by the Contractor, the Contractor will receive partial payments on this Agreement as the Work progresses, based upon estimates of the amount of Work done less payments previously made. In each case 5% of the Agreement Amount earned shall be retained until satisfactory completion and final acceptance of the Project, and final compliance by the Contractor with all terms and conditions of the Contract Documents. Neither progress payment nor partial or entire use or occupancy of the Project by the County shall constitute an acceptance of Work not in accordance with the Contract Documents. The County, prior to making of any payment, may require the Contractor to furnish a certificate or other evidence showing the amount of Work done or completed at that time.

- H. Progress Payments: If progress satisfactory to the County is being made by the Contractor, the Contractor will receive partial payments on this Agreement as the Work progresses, based upon estimates of the amount of Work done less payments previously made. Neither progress payment nor partial or entire use or occupancy of the Project by the County shall constitute an acceptance of Work not in accordance with the Contract Documents. - I. Invoices: See Section A General Conditions Payments/Invoices

**26. ACCEPTANCE AND FINAL PAYMENT**

- A. Final Inspection: Whenever all materials have been furnished, all Work has been performed, and the construction specified by the Contract has been satisfactorily completed, the Consultant and Engineer/Project Manager will make the final inspection.
- B. Maintenance of Work: The Contractor shall maintain all Work in first-class condition until final inspection is completed and accepted by the Design Professional/Engineer/Project Manager. All Bonds and Insurance shall be maintained until final acceptance by the Board.
- C. Substantial Completion: When the Work, or any portion thereof, as designated by the County is sufficiently complete, in accordance with the Contract Documents, and is ready for its intended use, the Design Professional/Engineer/Project Manager and any other invited parties shall make an inspection of the Work or portion thereof so designated as complete to verify its completeness and develop a punch list of items needing completion or correction before final payment can be made. The County shall have the right to exclude the Contractor from these portions of the Work designated as complete after the inspection, however, the Contractor will have reasonable access to complete or correct items on the punch list. The punch list shall be completed by the Design Professional/Engineer/Project Manager within the timeframes provided by Florida Statute Section 218.735(7)(a).
- D. Final Acceptance

**SECTION B – SPECIAL CONDITIONS**

1. Whenever the Work provided for under the Agreement has been completely performed by the Contractor, and the final inspection has been made by the Design Professional/Engineer/Project Manager, a final pay request showing the value of the Work will be prepared by the Design Professional/Engineer/Project Manager as soon as the necessary measurements and computations can be made. All prior estimates and payments shall be subject to correction in the final estimate and payment. The amount of this estimate, less any sums that may have been deducted or retained under the provisions of the Agreement, will be paid to the Contractor as soon as practicable, after the Contractor has furnished a sworn Affidavit, to the effect that all bills are paid and no suits are pending, and after the Contractor has agreed in writing to accept the balance due, as determined by the County, as full settlement of its account under Agreement and of all claims in connection therewith.
2. The surety on the Contract bonds consents, by completion of its portion of the affidavit and surety release subsequent to the Contractor's completion of its portion, to final payment to the Contractor and agrees that the making of such payment shall not relieve the surety of any of its obligations under the bonds.

**E. Waiver of Claims**

1. The Contractor's acceptance of final payment shall constitute a full waiver of any and all Claims by the Contractor against the County arising out of this Agreement or otherwise related to the Project, except those previously made in writing and identified by the Contractor as unsettled at the time the final estimate is prepared.
2. Neither the acceptance of the Work nor payment by the County shall be deemed to be a waiver of the County's rights to enforce any continuing obligations of the Contractor hereunder or to the recovery of damages for defective Work not discovered by the County at the time of final inspection.

**F. Termination of Contractor's Responsibility:** The Agreement will be considered complete when all Work has been completed and has been accepted by the Board. The Contractor will then be released from further obligation except as set forth in his bonds and in this Division.

**G. Recovery Rights, Subsequent to Final Payment:** The County reserves the right, should an error be discovered in the partial or final estimates, or should proof of defective Work or materials used by or on the part of the Contractor be discovered after the final payment has been made, to claim and recover from the Contractor or its surety, or both, by process of law, such sums as may be sufficient to correct the error or make good the defects in the Work and materials.

**27. PAYMENTS WITHHELD**

To the maximum extent permitted by §218.735, Florida Statutes (2007), the Design Professional/Engineer/Project Manager may decline to certify for payment or County may decline to approve any Certificate for Payment, or portions thereof issued by Design Professional/Engineer/Project Manager, because of subsequently discovered evidence or subsequent inspections. County may nullify the whole or any part of any Certificate for Payment previously issued and County may withhold any payments otherwise due Contractor under this Agreement or any other agreement between County and Contractor, to such extent as may be necessary in County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims filed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by Contractor; or (g) any other material breach of the Contract Documents. If these conditions are not remedied or removed, County may, after 3 days written notice, rectify the same at Contractor's expense. County also may offset against any sums due Contractor the amount of any liquidated or un-liquidated obligations of Contractor to County, whether relating to or arising out of this Agreement or any other agreement between Contractor and County.

**28. COVENANT AGAINST CONTINGENT FEES**

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this Agreement upon an agreement or understanding for a commission, percentage, brokerage or contingent fee, except bona fide employees of bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the County shall have the right to annul this Agreement without liability or, in its discretion, to deduct from the Agreement Amount or consideration, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.

**SECTION B – SPECIAL CONDITIONS**

**29. LANDS FOR WORK AND ACCESS THERETO**

- A. The County will furnish and define the limits of land for access to the construction site and for the site proper. All information shown in the Contract Documents constitutes the extent of land provided by the County. Any and all other lands required by the Contractor shall be procured by the Contractor at the Contractor's expense.
- B. As the work progresses, the Contractor shall keep the site reasonably clear of rubbish, trash, waste and other disposable materials on a daily basis. If the Contractor allows the site to become littered and unsightly, any payments otherwise due may be withheld until the Contractor cleans up the site to the satisfaction of the Design Professional/Engineer/Project Manager. If the Contractor fails to clean-up the site, the County may choose to clean-up the site at the Contractor's expense.
- C. Temporary buildings (storage sheds, shops, offices, etc.) may be erected by the Contractor only with the approval of the Design Professional/Engineer/Project Manager after obtaining necessary permits and shall be built with labor and materials furnished by the Contractor without expense to the County. Such temporary buildings and/or utilities shall remain the property of the Contractor and will be removed by the Contractor at its expense upon the completion of the Work. With the written consent of the Design Professional/Engineer/Project Manager, such buildings and/or utilities may be abandoned and need not be removed.
- D. The Contractor shall confine all construction equipment, the storage of materials and equipment and the operations of workers to the Project site and land and areas identified in and permitted by the Contract Documents and shall not unreasonably encumber the Project site with construction equipment or other material or equipment. The Contractor shall assume full responsibility for any damage to any such land or area, or to the County or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the Work.

**30. SITE INVESTIGATION**

- A. Each Contractor shall visit the site of the proposed Work and fully acquaint itself with conditions relating to construction and labor so that it may fully understand the facilities, difficulties and restrictions attending the execution of Work under the Agreement. The Contractor shall thoroughly examine and be familiar with the Contract Documents. Failure or omission of the Contractor to receive or examine any form, instrument, addendum or other documents, or to visit the site and acquaint himself with conditions existing thereon, shall in no way relieve the Contractor from any obligation with respect to the Agreement. Pinellas County does not warrant the accuracy or completeness of these reports, soil samples, or any other site condition information or data made available including, but not limited to, underground utility location. The submission of a bid shall be taken as prima-facie evidence of compliance with this section.

The County does not warrant the accuracy or completeness of these reports, soil samples, or any other site condition information or data made available including, but not limited to, underground utility location. The submission of a bid shall be taken as prima-facie evidence of compliance with this paragraph.

- B. The Contractor acknowledges that he has satisfied himself as to the nature and location of the Work; the general and local conditions, including but not restricted to, those bearing upon transportation, disposal, handling and storage of materials; availability of labor, water, electric power, roads; and uncertainties of weather, river stages, tides or similar physical conditions at the site; the conformation and conditions of the ground; the character of equipment and facilities needed preliminary to and during prosecution of the Work.
- C. The Contractor further acknowledges that it has satisfied itself as to the character, quality and quantity of surface and subsurface materials, obstacles, or conditions to be encountered.
- D. Any failure by the Contractor to acquaint itself with any aspect of the Work or with any of the applicable conditions shall not relieve the Contractor from responsibility for adequately evaluating the difficulty or cost of successfully performing the Work under the Contract Documents, nor shall it be considered the basis for any claim for additional time or compensation.
- E. The County assumes no responsibility for any conclusions or interpretations made by the Contractor on the basis of the information made available by the County. The County also assumes no responsibility for any understanding or representations made by its officers or agents during or prior to the execution of this Agreement, unless such understanding or interpretations are made in writing.

**31. PROTECTION OF EXISTING STRUCTURES, UTILITIES, WORK AND VEGETATION**

- A. Location of existing structures and utilities provided in the Contract Documents are approximate only. Any damage to existing structures or Work of any kind, or the interruption of a utility service resulting from failure to

comply with the requirements of the Contract Documents, shall be repaired or restored promptly by, and at the expense of the Contractor.

- B. The Contractor will preserve and protect all existing vegetation such as trees, shrubs and grass on or adjacent to the site which do not unreasonably interfere with the construction as may be determined by the Design Professional/Engineer/Project Manager. The Contractor will be responsible for all unauthorized cutting or damaging of trees and shrubs, including damage due to careless operation of equipment, stockpiling of materials or tracking of grass areas by equipment.
- C. The Contractor's attention is directed to the fact that Type "A" or Type "B" TREE PROTECTION BARRIERS, as per Pinellas County Design Professional/Engineer/Project Manager Department Index No. 1111, shall be constructed when called for on the Plans, or as directed by the Design Professional/Engineer/Project Manager. Barriers shall be maintained in place until their removal is directed by the Design Professional/Engineer/Project Manager.
- D. Care will be taken by the Contractor in felling trees authorized for removal to avoid unnecessary damage to vegetation that is to remain in place. Any limbs or branches of trees broken during such operations shall be trimmed without cutting into the trunk and left with a clean cut and a small stub. The Contractor will be liable for or may be required to replace or restore at its own expense, all vegetation that may be destroyed or damaged due to the Contractor's failure to protect and preserve same as required herein.
- E. Where the Contractor hauls material or equipment to the Project over roads and bridges on the State road system, County road system or City street system, and such use causes damage, the Contractor shall immediately, at its expense, repair such road or bridge to as good a condition as before the hauling began. Such hauling shall be conducted in accordance with all applicable environmental and safety regulations.
- F. The Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If the Contractor or any one for whom the Contractor is legally liable for is responsible for any loss or damage to the Work, or other Work or materials of the County or County's separate contractors, the Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due the Contractor.
- G. The Contractor shall not disturb any benchmark established by the County with respect to the Project. If the Contractor, or its subcontractors, agents or any one for whom the Contractor is legally liable, disturbs County benchmarks, the Contractor shall immediately notify the Design Professional/Engineer/Project Manager. The County shall have the benchmarks reestablished and the Contractor shall be liable for all costs incurred by the County associated therewith.

**32. OTHER WORK**

- A. The Contractor will cooperate with County forces or others who may be engaged in authorized Work prior to final completion of the Project.
- B. The Contractor shall cooperate with the owners of any underground or overhead utility lines in their removal and rearrangement operations in order that these operations may progress in a reasonable manner and that service rendered by these parties will not be interrupted.
- C. The County may perform other Work related to the Project at the site by the County's own forces, have other Work performed by utility owners or let other direct contracts. If the fact that such other Work is to be performed is not noted in the Contract Documents, notice thereof will be given to the Contractor. If the Contractor believes that such performance will involve additional expense to the Contractor or require additional time, the Contractor shall send written notice of that fact to the County and the Design Professional/Engineer/Project Manager within 48 hours of being notified of the other Work. If the Contractor fails to send the above required 48 hour notice, the Contractor will be deemed to have waived any rights it otherwise may have had to seek an extension to the Agreement Time or adjustment to the Agreement Amount.

The Contractor shall afford each utility owner and other contractors (or the County, if the County is performing the additional Work with the County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such Work and shall properly connect and coordinate its Work with theirs. The Contractor shall not endanger any Work of others by cutting, excavating or otherwise altering their Work and will only cut or alter their Work with the written consent of the Design Professional/Engineer/Project Manager and the others whose Work will be affected.

**SECTION B – SPECIAL CONDITIONS**

- D. If any part of the Contractor's Work depends, for proper execution or results, upon the Work of any other contractor other than a subcontractor or utility owner, the Contractor shall inspect and promptly report to the Design Professional/Engineer/Project Manager, in writing, any delays, defects or other problems in such other Work that render it impossible for the Contractor to obtain proper execution or results. The Contractor's failure to report will constitute an acceptance of the other Work as fit and proper for integration with the Contractor's Work.

**33. TERMINATION****A. Termination for Default**

1. The Contractor shall be considered in material default of the Agreement and such default shall be considered cause for the County to terminate the Agreement, in whole or in part, as further set forth in this paragraph, for any of the following reasons:
  - a. Failing to begin Work under the Contract Documents within the time specified herein;
  - b. Failing to properly and timely perform the Work as directed by the Design Professional/Engineer/Project Manager or as provided for in the approved Construction Progress Schedule;
  - c. Performing the Work unsuitably or neglecting or refusing to remove materials or to correct or replace such Work as may be rejected as unacceptable, unsuitable or otherwise defective;
  - d. Discontinuing the prosecution of the Work;
  - e. Failing to resume Work that has been suspended within a reasonable time after being notified to do so;

  - j. Failing to perform or abide by the terms or spirit of the Contract Documents.
2. The County shall notify the Contractor in writing of the Contractor's default. If the County determines that the Contractor has not taken substantial steps toward effecting a remedy or cure of the default or defaults in its performance within 7 calendar days following receipt by the Contractor of written notice of default or defaults, then the County, at its option, without releasing or waiving its rights and remedies against the Contractor's sureties, and without prejudice to any other right it may be entitled to hereunder or by law, may terminate the Contractor's right to proceed under this Agreement, in whole or in part, and may take possession of the Work and any materials, tools, equipment, and appliances of the Contractor, take assignments of any of the Contractor's subcontracts and purchase orders and complete the Contractor's Work by whatever means, method or agency which the County, in its sole discretion, may choose.
3. If the County deems any of the foregoing remedies necessary, the Contractor agrees it shall not be entitled to receive any further payment until after the Work is completed. All money expended and all of the costs, losses, damages and extra expenses, including all management, administrative and other overhead and other direct and indirect expenses, (including Design Professional/Engineer/Project Manager and Architectural fees) or damages incurred by the County incident to such completion, shall be deducted from the Agreement Amount, and if such expenditures exceed the unpaid balance of the Agreement Amount, the Contractor agrees to pay promptly to the County on demand, the full amount of such excess, including costs of collection, and interest thereon at the maximum legal rate of interest until paid.

The liability of the Contractor hereunder shall extend to and include the full amount of any and all sums paid, expenses and losses incurred, damages sustained and obligations assumed by the County in good faith under the belief that such payments or assumptions were necessary or required, in completing the Work and providing labor, materials, equipment, supplies, and other items therefore or relating to the Work, and in settlement, discharge, or compromise of any claims, demands, suits or judgments pertaining to or arising out of the Work hereunder.

4. If after notice of termination of the Contractor's right to proceed pursuant to this subparagraph A, "Termination for Default", it is determined for any reason that the Contractor was not in default or that its default was

**SECTION B – SPECIAL CONDITIONS**

excusable, or that the County is not entitled to the remedies against the Contractor provided herein, then the Contractor's remedies against the County shall be the same as and limited to those afforded the Contractor pursuant to the Termination for Convenience subparagraph B below.

**B. Termination for Convenience and Right of Suspension**

1. The County shall have the right to terminate or suspend this Agreement, in whole or in part; without cause upon 30 calendar days written notice to the Contractor.
2. In the event of such termination or suspension for convenience, the Contractor's sole recovery against the County shall be limited to that portion of the Agreement Amount earned through the date of termination or suspension, together with any retainage withheld and reasonable termination or suspension expenses incurred, but the Contractor shall not be entitled to any other or further recovery against the County, including, but not limited to, damages and any anticipated profit or Work not performed.

**34. SUBSTITUTIONS/ APPROVED EQUAL(S) PRIOR TO BID OPENING**

- A. The materials, products and equipment described in the Contract Documents established a standard of required function, dimension, appearance and quality to be met by any proposed substitution.
- B. No substitution will be considered prior to receipt of Bids unless a written request for approval has been received by the Pinellas County Purchasing Department, by the question deadline on page 1. Each such request shall include the name of the material or equipment for which it is to be substituted and a complete description of the proposed substitute including drawings, cuts, performance and test data and any other information necessary for an evaluation. A statement setting forth any changes in other materials, equipment or other Work that incorporation of the substitute would require shall be included. The burden of proof of the merit of the proposed substitute is upon the proposer. The decision of approval or disapproval of a proposed substitution shall be final.
- C. If the Purchasing Director approves any proposed substitution prior to receipt of Bids, such approval will be set forth in an Addendum. Bidders shall not rely upon approvals made in any other manner.

**35. SUBMITTALS AFTER AWARD**

**A. Schedule**

1. At or before the Preconstruction Conference, the Contractor shall submit a preliminary Construction Progress Schedule to the Design Professional/Engineer/Project Manager. The County will review the schedule and provide the Contractor with comments. Within 10 days after receipt of the County's comments, the Contractor shall deliver to the Design Professional/Engineer/Project Manager a Construction Progress Schedule in a form satisfactory to the Design Professional/Engineer/Project Manager and showing the proposed dates of commencement and completion of each of the various subdivisions of Work. At or before the Preconstruction Conference, the Contractor shall provide to the County a breakdown of estimated monthly payments for the entire duration of the Agreement period.
2. For lump sum items within Section E, the Contractor shall also furnish the Design Professional/Engineer/Project Manager with a detailed estimate giving a complete breakdown of the value of items of Work to be paid for the purpose of making partial payments thereon. The values employed in making up this estimate and the schedule will be used only for determining the basis of partial payment and will not be considered as fixing a basis for additions to or deductions from the Agreement Amount.
3. The Construction Progress Schedule shall be updated monthly by the Contractor. All updates to the Construction Progress Schedule shall be subject to the Design Professional/Engineer/Project Manager's review and County's written approval. Contractor shall submit the updates to the Progress Schedule with its monthly applications for payment noted below. Contractor's submittal of these monthly updates and Design Professional/Engineer/Project Manager's written approval of same shall be a condition precedent to County's obligation to pay Contractor.
4. The Work shall be planned and carried out so as to minimize the interruption of existing services, and/or traffic, or as directed by the Design Professional/Engineer/Project Manager.

- B. Contractor shall carefully examine the Contract Documents for all requirements for approval of materials to be submitted such as shop Plans, data, test results, schedules and samples. Contractor shall submit all such materials at its own expense and in such form and manner as required by the Contract Documents in sufficient time to prevent any delay in the delivery of such materials and the installation thereof. Incomplete submittals will be returned to the Contractor. The Design Professional/Engineer/Project Manager will record time for submittals

**SECTION B – SPECIAL CONDITIONS**

handled more than twice. The Contractor shall reimburse the County for charges of the Design Professional/Engineer/Project Manager and his/her consultants for providing more than two reviews of submittals.

- C. Whenever materials or equipment are specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular supplier, the naming of the item is intended to establish the type, function and quality required. Unless the name is followed by words indicating that no substitution is permitted, materials or equipment of other suppliers may be accepted by the Design Professional/Engineer/Project Manager if sufficient information is submitted by Contractor to allow the Design Professional/Engineer/Project Manager to determine that the material or equipment proposed is equivalent or equal to that named. Requests for review of substitute items of material and equipment will not be accepted by Design Professional/Engineer/Project Manager from anyone other than Contractor and all such requests must be submitted by Contractor to Design Professional/Engineer/Project Manager within 30 calendar days after notice of award is received by Contractor.
- D. If Contractor wishes to furnish or use a substitute item of material or equipment, Contractor shall make application to Design Professional/Engineer/Project Manager for acceptance thereof, certifying that the proposed substitute shall perform adequately the functions and achieve the results called for by the general design, be similar and of equal substance to that specified and be suited to the same use as that specified. The application shall state that the evaluation and acceptance of the proposed substitute will not prejudice Contractor's achievement of substantial completion on time, whether or not acceptance of the substitute for use in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with County for the Project) to adapt the design to the proposed substitute and whether or not incorporation or use by the substitute in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute from that specified will be identified in the application and available maintenance, repair and replacement service shall be indicated. The application also shall contain an itemized estimate of all costs that will result directly or indirectly from acceptance of such substitute, including costs for redesign and claims of other contractors affected by the resulting change, all of which shall be considered by the Design Professional/Engineer/Project Manager in evaluating the proposed substitute. Design Professional/Engineer/Project Manager may require Contractor to furnish, at Contractor's expense, additional data about the proposed substitute.
- E. If a specific means, method, technique, sequence or procedure of construction is indicated in or required by Contract Documents, Contractor may furnish or utilize a substitute means, method, technique, sequence or procedure of construction acceptable to Design Professional/Engineer/Project Manager, if Contractor submits sufficient information to allow Design Professional/Engineer/Project Manager to determine that the substitute proposed is equivalent to that indicated or required by the Contract Documents. The procedures for submission to and review by the Design Professional/Engineer/Project Manager shall be the same as those provided herein for substitute materials and equipment.
- F. Design Professional/Engineer/Project Manager shall be allowed a reasonable time within which to evaluate each proposed substitute. Design Professional/Engineer/Project Manager shall be the sole judge of the acceptability of any substitute. No substitute shall be ordered, installed or utilized without the Design Professional/Engineer/Project Manager's prior written acceptance which shall be evidenced by either a Change Order or an approved submittal. County may require Contractor to furnish at Contractor's expense a special performance guarantee or other surety with respect to any substitute. Design Professional/Engineer/Project Manager will record time required by Design Professional/Engineer/Project Manager and Design Professional/Engineer/Project Manager's consultants in evaluating substitutions proposed by Contractor and making changes in the Contract Documents occasioned thereby. Whether or not County accepts a proposed substitute, Contractor shall reimburse County for the charges of Design Professional/Engineer and Engineers consultant(s) for evaluating each proposed substitute.
- G. Shop Plans/Working Plans
1. One electronic complete set of detailed shop or working Plans shall be furnished by the prime Contractor to the Design Professional/Engineer/Project Manager for review and processing. The submittal shall include all details, computations, materials, loads, stresses, member sizes, deflections and temporary connections for pre-casting or any other relevant information on details necessary for review.
  2. All shop, working and erection Plans prepared by the Contractor or its subcontractor, fabricator or supplier shall be REVIEWED, DATED, STAMPED, APPROVED, SEALED (if required), and SIGNED BY THE CONTRACTOR prior to submission for review to the Design Professional/Engineer/Project Manager. By approving and submitting shop or working Plans, the Contractor represents that it has verified Work requirements, field measurements, construction criteria, sequence of assembly and erection, access and

**SECTION B – SPECIAL CONDITIONS**

clearances, catalog numbers and other similar data. Each submission shall indicate the Specification section or bid item number and page and/or sheet number to which the submission applies. Under no circumstances will submittals be accepted from subcontractors.

The Contractor shall indicate on the working, shop and erection Plans all deviations from the Contract Documents and shall itemize all deviations in the letter of transmittal.

3. Submittals shall be made to the Design Professional/Engineer/Project Manager and will be distributed to the appropriate parties, as applicable. The Contractor shall identify each submittal by title on the form provided by the Design Professional/Engineer/Project Manager. After they have been reviewed by the Design Professional/Engineer/Project Manager, all submittals shall be stamped either "no exceptions," "exceptions noted" or "rejected" with resubmittal required and returned to the Contractor.
4. Prior to receipt of the reviewed shop or working Plans from the County, Work done, or materials ordered for items covered by the Plans shall be done at the Contractor's risk.
5. All submittals by the Contractor shall be made sufficiently in advance of the scheduled start of the applicable construction operation to allow for shop Plans review and for Contractor action required in addressing review comments. The review period shall begin on the day the submittal is received in the office of the Design Professional/Engineer/Project Manager and shall be completed on the day the Design Professional/Engineer/Project Manager transmits reviewed Plans to the Contractor.
6. The Contractor shall schedule the submission of shop drawing sheets (to be discussed at the pre-construction meeting) so that approximately 21 days are allowed for review by the Engineer and Consultant for routine Work. For more complex Work, the number of copies and the scheduled time for review shall be increased proportionately to the complexity of the Work. Contractor submittals that are to be considered as complex and requiring proportionately greater review time include, but are not limited to, the following:
  - a. Contractor submittals of alternative design features or modifications to the original design.
  - b. Contractor submittals of complex designs, unusual construction or equipment and methods requiring analysis of design calculations.

MEMORANDUM

TO: Mary Celeste, Pinellas County Purchasing Director

FROM: Thomas R. Jewsbury, Airport Director 

DATE: August 15, 2022

SUBJECT: EMERGENCY - PIE Runway 18-36 Pavement Maintenance

St. Pete-Clearwater International Airport (PIE) completed the Runway 18-36 Rehabilitation project in the Spring of 2021. Although the contractor met all acceptance criteria per the Contract Documents during construction, it was noticed after the completion of the project that there was a portion of the longitudinal profile of the runway that did not meet the design criteria per the FAA Advisory Circular 150/5300-13B, Airport Design.

It was subsequently found that this design error was attributed to the design consultant of the project and would be subject to a potential claim against their Professional Liability Insurance coverage under their Agreement with the County. In this scenario, the County would seek reimbursement for all design and construction related costs associated with the required mitigation.

Fortunately, the design consultant agreed to cover all design and construction related costs and appropriate documents are being executed.

Ajax Paving Industries of Florida, LLC, (Ajax), the original contractor for the Runway 18-36 Rehabilitation project, has provided a cost estimate of \$2,322,396.21, (\$1,823,098.38 for the pavement maintenance work for Runway 18-36, and \$499,297.83 for maintenance work to Taxiway "G", should it be decided during field inspection that this work is needed due to impacts from air carrier aircraft during the closure of Runway 18-36), to perform this work to bring it in compliance with the FAA Advisory Circular. All costs of this work will be borne by the design consultant, including design, construction administration, quality control testing, inspection, project close-out, and other necessary tasks needed to complete this work.

The Airport requests approval of this emergency construction work to expeditiously bring the runway longitudinal alignment within design criteria.

The Airport also requests that this work be done without competition, as this work was originally completed by Ajax and other construction contractors would not be willing to take the risk of performing maintenance on another contractor's work.

The Airport is only going to be a "pass through" on this project; in other words, when pay applications are ready, our design consultant will deposit the full costs to an escrow account and the pay application will move through the OPUS workflow and be paid by Pinellas County.

The reason why Pinellas County must be involved at all is for the following reasons:

- 1) The County contract requirements such as payment and other related procedures, warranties, bonds, insurance, etc., must be encompassed in this work to ensure the County is protected under their standard provisions and contract language.
- 2) The design consultant cannot enter a contract with the contractor for this work, as by doing so, the design consultant would become a de facto general contractor. This scenario would require the design consultant to have a contractor's license, the proper insurance, and ability to obtain performance and payment bonds, which, as a design consultant, they do not.

Please contact Scott Yarley, PE, if you require further information.
