St. Pete-Clearwater International Airport (PIE) Runway Rehabilitation Project Update- Primary Runway to Reopen December 18th

PIE will reopen our primary runway on Friday, December 18th after its closure in July as part of our Runway Rehabilitation Project. During this closure, all flight operations were shifted to our secondary runway and noise abatement procedures were temporarily suspended. We recognize these altered flight patterns impacted residential communities while the airport completed these safety improvements. Noise Abatement Procedures will resume with the reopening of the primary runway. We appreciate the community's understanding during this critical phase of the project.

Thank you and Happy Holidays!
